AccuFund Instantly Web-enables Accounting Software Suite with GO-Global from GraphOn Corp.

Server-based Solution Eliminates the Need for Citrix or Windows Terminal Services

SANTA CRUZ, CA – May 21, 2007 – GraphOn Corporation (OTCBB:GOJO), a leading worldwide developer of server-centric application publishing and Web-enabling software solutions, announced today that it has signed a distribution agreement with Needham, MA-based AccuFund, Inc.

AccuFund is an independent software vendor (ISV) offering the AccuFund Accounting Suite, a Windows-based financial reporting and accounting software suite designed for non-profit organizations and government agencies. AccuFund has deployed GraphOn's GO-Global software to quickly and inexpensively Web-enable its software suite without having to make any changes to the accounting applications.

"GO-Global has given us the capability to instantly offer web-enabled solutions to our customers with remote locations, without the need to rewrite our software or use complex solutions such as Citrix or Windows Terminal Services," said Peter J. Stam, AccuFund President. "It also provides us with a practical interface for application modules used throughout an organization such as timesheet entry and electronic requisitions. In addition, we'll be using GO-Global internally for our hosted service."

GO-Global is a fast, simple and affordable application delivery solution that provides instant Web-enabled access to centrally-running Windows, UNIX and Linux applications from any location, platform and operating system. The server-centric solution is totally invisible to its users. Web-enabled applications appear on each user's desktop exactly as though they were running locally.

"The AccuFund Accounting Suite is an easy-to-use solution that makes life less complex for AccuFund's customers, so it makes perfect sense to Web-enable the suite with GO-Global, the easy-to-use application delivery solution," said GraphOn Regional Sales Manager Mike Ruggeri. "AccuFund has an excellent track record and we look forward to a very successful business partnership."

About AccuFund

AccuFund, Inc. develops financial reporting and accounting software solutions which it markets through its reseller channel to non-profit organizations, municipalities, and government agencies. The AccuFund Accounting Suite provides an easy, yet comprehensive and fully-integrated solution that meets all of an organization's needs, with the flexibility to grow as the organization does.
